Date of Birth : 30.6.2004

PROFESSIONAL PROFILE

Full-stack developer and IT Instructor. I teach programming & IT related subjects online. I build software, web applications and backend systems. Experienced in full-stack development, databases, and project management.

WORK EXPERIENCE

Founder & Primary Instructor **Sep 2022 — Present**

Oscord Code Academy — oscord.io *Remote*

- Teach IT-related courses (Java, Python, C#, Full-Stack Development, etc.) to 380+ students worldwide, with experience instructing kids, teenagers and adult learners.
- Design and deliver custom courses based on students' specific requirements, including Exam Preparation Programs and School Project Mentorship.
- Create structured learning materials and adapt teaching methods to suit different ages, skill levels, and learning goals.
- Built a custom Learning Management System (LMS) for online course delivery, student progress tracking, and assessment.
- Manage all academy operations beyond teaching, including curriculum development, instructor coordination, student support, business strategy, marketing, and platform operations.

Junior Full Stack Developer **Nov 2025 — July 2026**

Ociolink Consulting & Software Solutions Co., Ltd. *Part-Time·Remote*

- Worked as a Remote Part-Time Full-Stack Developer on various software and web application projects.
- Developed both frontend and backend features and maintained existing systems.
- Took on different responsibilities depending on the project, including Backend Developer, Database Administrator (DBA), and Project Manager.

Database & Backend Engineer **August 2026 — December 2026**

Invictus Diversity Technology & Rangsit University *Full - time* **4-month internship (in progress)**

- Successfully delivered the core server infrastructure for a university shuttle bus tracking system, enabling reliable real-time vehicle monitoring.
- Engineered a live-tracking engine that processes continuous GPS updates from shuttle buses and instantly broadcasts their exact locations to user dashboards.
- Built the geographical foundation of the application, ensuring complex bus routes, live coordinates, and designated stops are accurately visualized on interactive maps.
- Developed secure trip-management features that authenticate authorized shuttle devices and accurately record the start, progress, and completion of each journey.
- Established standardized, error-proof communication channels between the database, mobile applications, and administrative platforms to ensure a seamless end-to-end user experience.

FEATURED PROJECTS

Oscord.io – Learning Management System

Full-Stack Developer & Project Manager

- Built a complete online learning platform for hundreds of students, including video streaming, course management, assignments, instructor dashborad & admin analytics dashboard.
- Stack : PHP, MySQL, JavaScript, Bootstrap

Hyde Couture – E-Commerce Platform

Backend Developer, DBA & Project Manager

- Developed full-stack fashion e-commerce site with customer storefront (products, cart, orders, profiles) and admin dashboard for inventory, discounts, and sales reports.
- Implemented role-based authentication and per-variant stock tracking
- Stack : PHP, MySQL, JavaScript, Bootstrap

University Intranet System

Database Administrator

- Designed the complete database for student records, course registration, enrollment, grading, user management for rangsit university's web portal.
- Worked with team to integrate with Java Spring backend and React frontend.
- Stack : MySQL, Java Spring, React

Restaurant Management & Ordering System

Full-Stack Developer

- Built a QR code self-ordering system for restaurants with customer menu browsing, real-time order notifications, kitchen and staff dashboards, inventory tracking, and billing.
- Stack : Node.js, Express.js, React, MySQL, Bootstrap

EDUCATION

Bachelor of Science in Computer Science **Jun 2024 — Present**

Rangsit University, Thailand

- Expected graduation : December 2026
- Current GPA : 3.56 / 4.00.

SKILLS

Programming Languages : PHP, JavaScript, Java, Python, C#, C, C++, Flutter, Node.js

Frameworks : Laravel, Express.js, React.js, Spring Boot

Databases : MySQL, MongoDB, PostgreSQL, Microsoft SQL

Technical Skills : Full-Stack Development, RESTful APIs, Database Design, Software Architecture, OOP, Git & Version Control, Auth & Security, Deployment, System Analysis, Software Testing

Soft Skills : Project Management, Curriculum Design, Leadership, Content Writing, Graphic Design, Video Editing, Business Strategy, Technical Documentation, Digital Marketing

Languages Spoken : Myanmar (Burmese) – Native, English – Upper Intermediate, Thai – Beginner
